Re: Appointment of County E911 Coordinators to E911 Board

Dear Members of the Florida 9-1-1 Coordinators Association,

There is renewed momentum to have the vacant 911 Coordinator positions on the E911 Board filled. Ms. Melissa McKinlay, a Charlotte County Commissioner, is the new President of the Florida Association of Counties (FAC). Upon being notified of the news by none other than our own Laurie Anderson of Charlotte County, I launched a letter to Governor DeSantis and Cc'd a number of folks that I hope would create some conversation about the issue.

The efforts to fill the E911 Board vacancies began early in 2019 and I initially received responses from the FAC as well as the Governors Appointments Office but as you know, no appointments of County Coordinators have been made.

In May of 2019, nominations were submitted to the Florida Association of Counties for submission to the Governors Appointments Office.

The nominations are as follows:

Daniel Carroll, Walton County, Rural County representative  
Jarrod Shupe, Flagler County, Medium County representative  
Chuck Spalding, Palm Beach County, Large County representative  
Laurie Anderson, Charlotte County, At-Large representative  
Christine Cooper, Okaloosa County, At-Large representative

Hopefully the new President of the FAC will be able to move this issue forward.

Sincerely,

A. Keith Godwin, CPM, ENP  
President, Florida 9-1-1 Coordinators Association, Inc.
